

WEEK 2

Aim

To design and develop a **Static Campus Placement Application for Anil Neerukonda Institute of Technology & Sciences (ANITS)** using HTML5 and CSS3, demonstrating semantic webpage structure, responsive layouts, navigation menus, forms, and attractive styling.

Description:

This experiment involves developing a static Campus Placement Application using only HTML5 and CSS3. The application is designed as a professional institutional placement portal that provides information about the Training and Placement Department, student registration, student login, participating companies, placement information, and contact details.

The application consists of interconnected webpages including Home, About, Student Registration, Registration Success, Student Login, Companies, and Contact pages. HTML5 semantic elements, hyperlinks, images, lists, tables, forms, HTML5 validation, and iframes are used to structure and organize the website. CSS3 is used to provide responsive layouts, Flexbox, backgrounds, gradients, hover effects, box shadows, border radius, transitions, and other styling features.

The website provides students with an interactive and well-organized interface for accessing campus placement-related information

<h2>About the Training & Placement Department</h2>

</div>

<p>Anil Neerukonda Institue of Technology & Sciences (ANITS)
has a dedicated Training & Placement Department led by
Prof.P.Padmajaand supported by 18 Faculty Coordinators.The
Department

is committed to maximising student placements in both software and core engineering sectors through continuous skill development and industry engagement

ANITS provides comprehensive Campus Recruitment Training (CRT) covering **Quantitative Aptitude, Logical Reasoning, Verbal Reasoning, English Communication, Group Discussions,** and **Interview Skills.** These programs are conducted

by experienced in-house trainers to prepare the students for campus recruitment.

Recruiter feedback and alumni performance are regularly analysed to improve training strategies and align them with industry requirements. The institute offers excellent placement infrastructure, including a **400-seat air**

conditioned auditorium, computer laboratories and examination halls accommodating over **500 students**, and **well-equipped interview rooms** for smooth recruitment processes.

Through dedicated efforts, continuous improvement, and strong collaboration with industry, ANITS has consistently achieved an excellent placement record.

The institute is recognized as one of the **Top Ten Most Preferred Private Engineering Colleges in Andhra Pradesh** by APSCHE among more than **700 engineering institutions.**

Our Department Focuses On

- Identifying employment opportunities for fresh engineering graduates.
- Building strong industry–academia partnerships.

```
<li>Providing comprehensive campus recruitment training programs.</li>
<li>Organizing industry expert lectures, workshops, and interactive
sessions.</li>
<li>Promoting innovation and entrepreneurship development.</li>
<li>Facilitating internships, industrial visits, and technical collaborations.</li>
</ul>

The screenshot displays a web browser window with the address bar showing the file path: C:/Users/lakshy/OneDrive/Desktop/fullstack/week2/registration.html. The browser's toolbar includes navigation buttons, a search icon, and a chat icon.

The website's header is blue and contains the Anil Neerukonda Institute of Technology & Sciences logo on the left. The header text reads "Anil Neerukonda Institute of Technology & Sciences" in white, with "Campus Placement Portal" in red below it. Navigation links for Home, About, Register, Login, Companies, and Contact are listed in white.

The main content area is white and features a centered heading "Student Registration". Below this heading is a "Personal Information" form. The form consists of a table with two columns: a label column and an input column.

Result:

The Static Campus Placement Application for ANITS was successfully designed and developed using HTML5 and CSS3. The application includes interconnected webpages for Home, About, Student Registration, Registration Success, Student Login, Companies, and Contact. The project demonstrates semantic HTML elements, navigation, forms, tables, responsive design, and CSS styling to create a professional static placement portal.
